Name of Action or Project: Chappaqua Hamlet - adoption of a Form-Based District		
Project Location (describe, and attach a general location map): The business and industrial districts in the Chappaqua hamlet, New Castle, NY (~ 0.75 mile stretch Along Greeley Ave, Upper and lower portions of King Street), see location map.		
Brief Description of Proposed Action (include purpose or need): The Proposed Action is an amendment to the Town of New Castle Zoning Law that changes the zoning of the Chappaqua Hamlet business and industrial districts to a new "Form-Based District" in order to make the zoning consistent with the goals of the Town's 2017 Comprehensive Plan. The area to be rezoned spans approximately 72 acres along Greeley Ave and King Street including the areas currently zoned in this hamlet B-R (Retail Business), B-RP (Retail Business and Parking), B-D (Designed Business), and I-P (Planned Industrial Zoning). The new zoning district is intended to provide flexibility for development with the intent to revitalize the hamlet and create a sustainable and successful mix of commercial and residential uses taking account of current and future real estate markets and trends. Full Environmental Assessment Form
Part 2 - Identification of Potential Project Impacts

Agency Use Only [If applicable]
 Project: _____
 Date: _____

Part 2 is to be completed by the lead agency. Part 2 is designed to help the lead agency inventory all potential resources that could be affected by a proposed project or action. We recognize that the lead agency's reviewer(s) will not necessarily be environmental professionals. So, the questions are designed to walk a reviewer through the assessment process by providing a series of questions that can be answered using the information found in Part 1. To further assist the lead agency in completing Part 2, the form identifies the most relevant questions in Part 1 that will provide the information needed to answer the Part 2 question. When Part 2 is completed, the lead agency will have identified the relevant environmental areas that may be impacted by the proposed activity.

If the lead agency is a state agency **and** the action is in any Coastal Area, complete the Coastal Assessment Form before proceeding with this assessment.

Tips for completing Part 2:

- Review all of the information provided in Part 1.
- Review any application, maps, supporting materials and the Full EAF Workbook.
- Answer each of the 18 questions in Part 2.
- If you answer "Yes" to a numbered question, please complete all the questions that follow in that section.
- If you answer "No" to a numbered question, move on to the next numbered question.
- Check appropriate column to indicate the anticipated size of the impact.
- Proposed projects that would exceed a numeric threshold contained in a question should result in the reviewing agency checking the box "Moderate to large impact may occur."
- The reviewer is not expected to be an expert in environmental analysis.
- If you are not sure or undecided about the size of an impact, it may help to review the sub-questions for the general question and consult the workbook.
- When answering a question consider all components of the proposed activity, that is, the "whole action".
- Consider the possibility for long-term and cumulative impacts as well as direct impacts.
- Answer the question in a reasonable manner considering the scale and context of the project.
